## NOTES:

# Jupiter in 2018:

## JUPITER: HOUSE

**starts the year at 16 degrees SCORPIO**  
**starts retrograde March 9th at 23 degrees Scorpio**  
**ends retrograde July 10th at 13 degrees Scorpio**  
**enters SAGITTARIUS on November 8th**  
**ends year at 11 degrees Sagittarius**

**What house(s) will Jupiter travel through in your chart during 2018? These houses will get expansive energy, offer you opportunities for growth, and you can focus on the good. What potential impact may that have? How can you best use the energy?**

Tip: When one of the faster moving planets (Sun, Mercury, Venus, Mars) is in the same sign/house, this can bring extra energy. The SUN shines more of a light; MERCURY brings more mental focus and communication; VENUS brings pleasant energy; and MARS brings energy and drive. These are the times when they will be in the same sign as Jupiter:

Mars: to start year until January 26th (Scorpio)

Venus: September 9th, retrogrades October 5th - 31st in Jupiter's sign (Scorpio)

Mercury: October 9th - 31st (Scorpio); as Jupiter enters Sagittarius, Mercury is in Sagittarius, then retrogrades in Sagittarius November 16th - December 1st; is back in Sagittarius in regular motion December 12th to the end of the year

Sun: October 23rd to when Jupiter enters Sagittarius November 8th (Scorpio); November 22nd - December 21st (Sagittarius)

# Jupiter in 2018:

## JUPITER: ASPECTS

Jupiter is the planet of EXPANSION. Conjunctions expand a LOT, sextiles and trines expand more easily, squares may expand frustration, and oppositions can expand to the nth degree.

Aspects in Scorpio are 13 - 29 degrees of:

Scorpio - Conjunction  
Virgo or Capricorn - Sextile  
Leo or Aquarius - Square  
Cancer or Pisces - Trine  
Taurus - Opposition

Aspects in Sagittarius are 0 - 11 degrees of:

Sagittarius - Conjunction  
Libra or Aquarius - Sextile  
Virgo or Pisces - Square  
Aries or Leo - Trine  
Gemini - Opposition

What aspects will Jupiter make to your chart in 2018? How may these impact you?

# Saturn in 2018:

## SATURN: HOUSE

starts the year at 1 degree CAPRICORN  
starts retrograde April 17th at 9 degrees Capricorn  
ends retrograde September 6th at 2 degrees Capricorn  
ends year at 11 degrees Capricorn

What house(s) will Saturn travel through in your chart during 2018? This is general an area where you may have to work harder, learn lessons, and be more responsible. What potential impact may that have? How can you best use the energy?

Tip: When one of the faster moving planets (Sun, Mercury, Venus, Mars) is in the same sign/house, this can bring extra energy. The SUN shines more of a light; MERCURY brings more mental focus and communication; VENUS brings pleasant energy; and MARS brings energy and drive. These are the times when they will be in the same sign as Saturn:

Mars: March 17th - May 16th, retrogrades into Capricorn August 12th - 27th, leaves Capricorn September 10th

Venus: to start year until January 17th

Mercury: January 11th - 31st

Sun: to start year until January 19th, December 21st to end of year

# Saturn in 2018:

## SATURN: ASPECTS

Saturn energy RESTRICTS, and he rules RESPONSIBILITY, GOALS, AND DISCIPLINE. Conjunctions bring super restriction, sextiles and trines are easy focus, squares are internal difficulties, and oppositions are external issues.

Aspects are 1 - 11 degrees of:  
**Capricorn - Conjunction**  
**Scorpio or Pisces - Sextile**  
**Aries or Libra - Square**  
**Taurus or Virgo - Trine**  
**Cancer - Opposition**

What aspects will Saturn make to your chart in 2018? How may these impact you?

# Uranus in 2018:

**starts year at 24 degrees ARIES and retrograde  
ends retrograde on January 2nd  
enters TAURUS on May 15th  
turns retrograde on August 7th at 2 degrees Taurus  
retrogrades back into ARIES on November 6th  
ends year at 28 degrees ARIES and retrograde**

Uranus is the planet of CHANGE, by house and by aspect. Conjunctions bring major change, sextiles and trines bring easy change, squares bring restlessness, and oppositions bring external forces.

What house(s) will Uranus travel in your chart in 2018, and how may this impact you? The areas of life ruled by the house can experience change, demand an unconventional approach, and bring more independence.

**Aspects for ARIES are 24-29 degrees of:**

**Aries - Conjunction  
Gemini or Aquarius - Sextile  
Cancer or Capricorn - Square  
Leo or Sagittarius - Trine  
Libra - Opposition**

**Aspects for TAURUS are 0-2 degrees of:**

**Taurus - Conjunction  
Cancer or Pisces - Sextile  
Leo or Scorpio - Square  
Virgo or Capricorn - Trine  
Scorpio - Opposition**

What aspects will Uranus make to your chart in 2018, and how may they impact you?

Note about Uranus: Uranus starts to move into Taurus in 2018, after being in Aries since 2010. This signals a big shift, a whole new beginning for the next 7-8 years, and we can see a lot of wrapping things up, endings, and frantically trying to get things started/finished in 2018 as his time in Aries starts coming to an end, and we feel we're running out of time. At the same time, we can look ahead and start taking the first steps in the next phase of life. Onward!

# Neptune in 2018:

**starts year at 11 degrees PISCES**  
**turns retrograde on June 18th at 16 degrees Pisces**  
**ends retrograde on November 24th at 13 degrees Pisces**  
**ends year at 14 degrees PISCES**

Neptune energy DISSOLVES and makes things HAZY. Conjunctions can be very foggy, sextiles and trines can be creative and imaginative, squares can make you vulnerable, and oppositions can take things away.

**Aspects are 11-16 degrees of:**  
**Pisces - Conjunction**  
**Taurus or Capricorn - Sextile**  
**Gemini or Sagittarius - Square**  
**Cancer or Scorpio - Trine**  
**Virgo - Opposition**

What house(s) will Neptune travel in your chart in 2018, and how may this impact you? The areas of life ruled by the house can get a bit foggy at times, require more intuition and imagination, or demand more of a spiritual approach.

What aspects will Neptune make to your chart in 2018, and how may they impact you?

Note about Neptune: Neptune remains in the sign it rules, Pisces, for all of 2018, so there is some natural ease to his time in Pisces. This amplifies Pisces/Neptune energy - more focus on water, compassionate and empathy, spirituality, vulnerability, illusion, delusion, imagination - and we need to work at manifesting the positive as much as we can, especially while Neptune is retrograde and bringing in the haziness.

# Pluto in 2018:

**starts year at 18 degrees CAPRICORN**  
**turns retrograde on April 22nd at 21 degrees Capricorn**  
**ends retrograde on September 30th at**  
**18 degrees Capricorn**  
**ends year at 20 degrees CAPRICORN**

What house(s) will Pluto travel in your chart in 2018, and how may this impact you? The areas of life ruled by the house may require a transformation, can get obsessive energy, may require more research, or you can dive deeper into and bring out the darker side.

Pluto TRANSFORMS. Conjunctions can bring total transformations, sextiles and trines gives you control and power, squares can be unsettling and deep change, and oppositions can be opposition out of your control.

**Aspects are 18 - 21 degrees of:**  
**Capricorn - Conjunction**  
**Scorpio or Pisces - Sextile**  
**Aries or Libra - Square**  
**Taurus or Virgo - Trine**  
**Cancer - Opposition**

**Note that you may also feel aspects at 16-17 degrees to start year and at end of retrograde, and 22-23 degrees at start of retrograde.**

What aspects will Pluto make to your chart in 2018, and how may they impact you?

Note about Pluto: Saturn will also be in Capricorn with Pluto for all of 2018 - major focused, disciplined, passionate energy! And this is largely focused on the areas of life ruled by the house(s) both planets will tour. This energy goes on for a few years, so what we work on now can be a focus for years to come. It can be difficult and long and require complete dedication, some lessons learned, and a transformation or two, but well worth it in the end. Keep your eye on the long-term prize.

# Retrogrades

A planet is called retrograde when it appears to be moving backward from our view here on Earth; it isn't actually moving backward, it just appears that way because of the way the planets move in relation to Earth. The only planets that don't turn retrograde are the Sun (since the Earth revolves around the Sun) and the Moon (since the Moon revolves around Earth). The outer planets are retrograde for months at a time every year, so their influence is very subtle. The retrogrades to pay attention to are for Mercury, Venus, and Mars.

When these planets are retrograde, their energy doesn't operate properly, and we can experience all sorts of issues. What those issues will be depends on the house the planet is retrograding in. If you were born with the planet retrograde though, you're exempt from the problems because the retrograde energy is natural to you. When the planet isn't retrograde, you might have more issues than everyone else, so if you have any of these three planets retrograde, it's important for you to pay attention to when it is retrograde so you can make the most of the energy.

Mercury retrogrades 3-4 times each year for several weeks at a time. Since Mercury rules communications and technology, this retrograde tends to throw everything off in our modern world. Venus retrogrades about every year-and-a-half for about a month-and-a-half or so. Since Venus rules money and relationships, these two areas of life tend to have greater difficulty; we also have a hard time finding pleasure in anything. Mars retrogrades about every two years, and since Mars rules energy and drive, we can be lazy and unmotivated.

Retrogrades can be the most difficult time of the year for you because they throw a monkey wrench in your plans. They're a lesson in flexibility, forcing us to adapt. The thing that they're best for is do-overs and the re-'s: revise, redo, revisit, rearrange, etc.

So when you see a retrograde coming, know that you'll need to be flexible with the areas of life ruled by the house(s) that will be impacted, and try not to start anything new or make any concrete plans. Instead, attempt to do something over again. We all have things that we'd like to have another chance with, and retrogrades give us that chance.

# Eclipses

Eclipses are amped up new and full moons, with solar eclipses corresponding to new moons, and lunar eclipses corresponding to full moons. The eclipses have greater impact of up to six months. New moons correspond to beginnings and opportunities, while full moons correspond to endings and culminations. The areas of life ruled by the houses the eclipses occur in are impacted by the eclipses. The closer the eclipse is to a house cusp (the very beginning of a house), the more it will impact you. If an eclipse is also conjunct (in the same spot - within 5 degrees) or opposite a natal planet, especially the Sun or Moon, that also gives it more influence.

Most focus goes on the eclipses in a one year span; you can also track the new and full moons, or just pay attention to the ones in your Sun sign, Moon sign, or Rising sign. These are the new and full moons for 2018:
