Extra: Planets in Taurus

The Sun, Mercury, and Venus move into Taurus this month, joining Uranus and Black Moon Lilith in this sign. Taurus is a sign of stability and security, and wants everything to be calm and focused, but with Uranus in the mix, we've been trying to achieve this in unconventional ways, and can make changes to bring stability and calm (which might make it not-so-calm at first!).

The Sun conjuncts Uranus on April 30th, Mercury conjuncts Uranus on April 24th, and Venus conjuncts Uranus on April 22nd, and all are at 10 degrees. This can stimulate the change energy and make for some unconventional developments.

With Black Moon Lilith in the mix, we can push for what we believe no matter what. Lilith already conjuncted Uranus back in December; the Sun conjuncts May 13th, Mercury conjuncts April 29th, and Venus conjuncts May 2nd. This can stimulate that desire to take a stand (but we do need to be mindful of our approach, and watch for stubbornness - that can be an issue this month!).

How can you improve stability and security in your life? What changes can you make that would calm things down? What do you need to stand up with? Brainstorm:
