Become an Expert

We'd all like to become an expert at something, right? Someone who knows what they're talking about and has people come to them to ask them about it. Using your natal chart, you can figure out what exactly you can become an expert at, if you want to.

Before you begin, you will need to know a few placements from your natal chart. They are:

11th house sign, planets, and ruler

Uranus sign, house, and aspects

House with Aquarius on the cusp

Do you need to create your natal chart?

Watch the video on the [Free Astrology Courses](#) page for instructions on how to do so via astro.com, and how to figure out the placements in your chart.

FIRST: 11TH HOUSE OF EXPERT KNOWLEDGE

The 11th house is a house of knowledge, but it's expert knowledge. With the 11th house, you want to know as much about something that interests you as humanly possible. Because of this, the 11th house rules expert knowledge, and you can study your 11th house to find what you should become an expert at. First, look to see what sign is on the cusp of your 11th house (the cusp of a house is the very beginning of that house). The sign on the cusp is the most important part of your 11th house, and if you pay attention to nothing else covered in this mini course, pay attention to this sign. Next, you'll look at any planets that are in your 11th house. Any planets in the 11th house will impact your 11th house, and will offer more ways and places for you to become an expert. Check out the 11th House page on The Dark Pixie Astrology for interpretations of the 12 signs on the cusp and natal planets in the house:

But I don't have any planets in the 11th house!

Having no planets in your 11th house does NOT mean you can't be an expert. When a house has no planets in it, all that means is that you carry less baggage into this life to work out regarding the areas of life that house rules. So no need to panic!

Once you've got those, then you'll want to find the ruler of the 11th house. Every sign has a planetary ruler of that sign. They are:

Aries - Mars

Taurus, Libra - Venus

Gemini, Virgo - Mercury

Cancer - Moon

Leo - Sun

Scorpio - Pluto

Sagittarius - Jupiter

Capricorn - Saturn

Aquarius - Uranus

Pisces - Neptune

The planetary ruler of a house is the planetary ruler of the sign on the house cusp, so whatever sign is on your 11th house cusp, the ruler of that sign is the ruler of your 11th house. The house that planet is in can give a little more information about your 11th house, with the house the ruler is in being linked to the 11th house in some way.

Planetary ruler of the 11th house in the houses:

1st house - you can come across as an expert naturally

2nd house - you can be an expert financially

3rd house - you can sound like an expert, be an expert with words

4th house - you can be an expert with emotions, the home or family

5th house - you can be an expert with love, children, or a hobby

6th house - you can be an expert with your work

7th house - you can be an expert at relationships

8th house - you can be an expert at finance or with transformations

9th house - you can be an expert with travel, international dealings, or education

10th house - you can be an expert in your career

11th house - the ruler of a house located in that house brings a natural ease with the energy of that house

12th house - you can be an expert with spirituality or endings

Another thing to look at is if your 11th house cusp is at certain degrees called critical degrees. In each sign, there are 30 degrees (and in each degree, there are 60 minutes). The critical degrees are specific degrees that can mean you have more to work through, and with the 11th house, this means you'll have to work harder and have more blocks to get through in order to become an expert. The critical degrees are:

0, 13, and 26 of Aries, Cancer, Libra, Capricorn

8-9, 21-22 of Taurus, Leo, Scorpio, Aquarius

4 and 17 of Gemini, Virgo, Sagittarius, Pisces

There is one more critical degree, the anaretic degree, which is 29 degrees of any sign. Having your 11th house at the anaretic degree can show that you have a hard time becoming an expert, either not applying yourself or not getting others to see you that way. You have to work harder at having better focus, or make sure you're presenting yourself the best way you can.

SECOND: URANUS

Uranus is the natural planetary ruler of the 11th house, and adds to your expert energy. Determine the sign Uranus is in and house Uranus is located. Visit the Natal Uranus page of The Dark Pixie Astrology for interpretations of Uranus in the 12 signs and 12 houses:

<http://www.thedarkpixieastrology.com/natal-uranus.html>

Next, determine the major aspects that your Uranus makes to your other planets. An aspect is when two points in a chart are at certain angles to one another. If you don't know the aspects your Uranus makes, create your chart on astro.com as described in the video, and when you've generated the chart, click on Additional tables (PDF) on the upper left. This will generate a PDF of your chart with an Aspects table on the bottom. Find the

Uranus symbol: 

Follow the column and row for Uranus and see if any of them are filled out. Ones that are empty show no major aspects exist between Uranus and the other planet. These are the glyphs for the other planets:

Sun 

Moon 

Mercury 

Venus 

Mars 

Jupiter ♃

Saturn ♄

Neptune ♆

Pluto ♇

This table does show some minor aspects. For the sake of this mini course, you can just focus on the major aspects, which are:

Conjunction ☿

Sextile ✳

Square ◻

Trine ▲

Opposition ⋈

The minor aspects that astro.com shows are (if you're a beginner, just focus on the major ones first and get a good handle on those):

Semisextile ♁

Quincunx ⋏

Quintile Ⓚ

BiQuintile Ⓛ

Semisquare □

Sesquiquadrate □

Look at the row and column for your Uranus, and see which major aspects are present with other planets. Your Uranus likely won't make more than a handful of major aspects (even less than that for some of you). This is the case for all planets, so if you don't have more than a couple of major aspects to your Uranus, don't be alarmed. The major aspects will just have more influence over your Uranus.

Sextiles and trines are seen as positive, so you have an easier time manifesting the energy of the two planets together in a positive way.

Squares and oppositions are seen as difficult, so you have a harder time manifesting the energy of the two planets in a positive way. That doesn't mean that if you have only squares and oppositions to your Uranus for major aspects that you'll never be able to become an expert, but you will have to work harder. Squares tend to be more internal, so if you see a square, you know it's something you need to work on with yourself on the inside.

Oppositions tend to be external, so if you see an opposition, you know that you have to learn how to manage dealing with other people and oppositional energy.

Conjunctions can go either way as neutral aspects. In the natal chart, the planets conjunct your Uranus are most important for Uranus, and can impact how you deal with fame. For interpretations of all major aspects to your natal Uranus, visit [The Natal Uranus page of The Dark Pixie Astrology](#):

Like with the 11th house, you'll also want to see if your Uranus is at a critical or anaretic degree, and if it is, it'll be interpreted similarly to the 11th house when it comes to being an expert.

THIRD: AQUARIUS HOUSE

Aquarius is the sign that Uranus rules, and the house cusp that Aquarius falls on can show where you may be able to become an expert, so look for the house cusp that has the sign of Aquarius on it: ♒

It'll be interpreted similarly to the signs on the 11th house cusp, except it'll be assigned by house instead. Below are some different ways and areas and professions you can become an expert at/in/with:

1st house - military, police officer, firefighter, optometrist, arson investigator, physical therapy, athletics, physical fitness, in sports; Aquarius on the 1st house can show someone who comes across as an expert.

2nd house - art, music, music manager, talent scout, chef, baker, farming, banking, investing, appraising, singer; Aquarius on the 2nd house can show someone who makes more money by becoming an expert at handling money, and that you can make money by being an expert.

3rd house - sales, publicist, advertising, producer, language, statistics, accountant, writer, editor, publisher, in IT; Aquarius on the 3rd house can show someone who is an expert of the mind or communication.

4th house - executive, gardening, teaching, social work, military, caretaker, home builder, interior design, construction; Aquarius on the 4th house can show someone who is an expert at nurturing, or seems like an expert when it comes to dealing with family or creating a good home/home life.

5th house - art, director, cardiologist, politician, publicist, news anchor, actor, athletics, music, in theater, comedy; Aquarius on the 5th house can show someone who is an expert at something creative or fun, anything to do with dating or love, or who can have an expert child or date experts.

6th house - critique, psychology, analysis, mathematics, statistics, accountant, economist, editor; Aquarius on the 6th house can show someone who can be an expert at being organized, creating routines, focusing on the details, or is an actual expert with their work.

7th house - actor, jewelery, diplomacy, florist, makeup artist, lawyer, music, fashion, interior designer, art, mediator, judge; Aquarius on the 7th house can show someone who is an expert at relationships.

8th house - detective, profiler, cryptographer, investigator, antiques dealer, researcher, forensic accountant, forensic pathologist, medical examiner, psychology; Aquarius on the 8th house can show someone who is an expert at shared resources, business partnerships, or with a taboo subject.

9th house - philosophy, athletics, lawyer, theology, engineering, pilot, sales, teaching, writer, speaker, publisher, in television or radio; Aquarius on the 9th house can show someone who is an expert at expansion, with travel, or with cultures.

10th house - carpenter, dentistry, orthopedist, civil engineer, chiropractor, mason, CEO, politician, government official, historian, antiques dealer, doctor; Aquarius on the 10th house can show someone who is an expert in their chosen career.

11th house - astronaut, astrologer, electrical engineer, psychologist, teacher, politician, inventor, entrepreneur, scientist, researcher, physicist, civic leader, in IT, the internet, with friendships, groups, charity, in a broad sense; the 11th house is naturally ruled by Aquarius, so there can be a natural ease with being an expert..

12th house - podiatry, bartender, chemistry, art, veterinarian, chemical engineer, psychic, spirituality, healer, writer, musician, dancer, doctor,

nurse. medical care; Aquarius on the 12th house can show someone who is an expert behind the scenes, in the background.

What if I have Aquarius on two house cusps?

Some of you may see Aquarius on two house cusps, which gives you double the possibilities for being an expert. Note that the first house cusp with Aquarius on it might actually be taken over by the idea of being an expert, so you have to take care that you don't ignore the important aspects of that house.

But I don't see Aquarius on any house cusps!

Some of you may have Aquarius contained within a house, called intercepted. This occurs when you have Capricorn on one cusp, and Pisces on the next cusp, so Aquarius is completely within the Capricorn house. Interpret for the Capricorn house, but know that when a sign is contained within a house like this, it's difficult to access the energy of the sign. It's being gobbled up by the house, so you may be someone who feels that the parts of life associated with the house Aquarius is in are far more important than becoming an expert.
