Pluto aspects and potential impact:

Extra: Saturn Back to Capricorn

Right to start July, Saturn goes back to Capricorn on the 1st. This brings back the Capricorn stellium as Jupiter and Pluto are in Capricorn.

We have extra focus on this yet again, and more emotions are brought into it with the Lunar Eclipse in Capricorn on July 5th. We're driven to act by what we feel, and we're forced to focus on the status quo, the ways things have been, and what new structures we have to create.

Saturn will be anaretic in Capricorn July 1st -16th, and we feel the desire to act immediately, but we need to make sure we're going about things the right way and not giving in to impulse.

Saturn ends its retrograde September 29th at 25 degrees Capricorn, so impact for most of us with the remainder of the Capricorn stellium will be felt with positions later than 22 degrees of:

Conjunction: Capricorn
Sextile: Scorpio or Pisces
Square: Aries or Libra
Trine: Taurus or Virgo
Opposition: Cancer

Which of your natal houses will the remainder of the Capricorn stellium occur in? What does the house rule, and how can that impact you? What major aspects will be made for you? How can that impact you? Brainstorm:
