January 1st - 7th 2018

With the new week and new year comes a full moon on Monday in Cancer, and this stimulates a serious part of your chart, so you may go into this new year focusing on serious matters, serious situations, or stuff deep inside of you that you want to get out and release. You can take everything more seriously, and you can focus intensely on anything of interest. You may feel a bit more emotional to start the week, so give yourself some comfort. On Tuesday, Uranus ends his retrograde (appearing to move backward) in Aries and your love sector, and you may have struggled with changes in your love relationships or with your hobbies over the last few months. Now you can work on making the changes you want going forward. Your ruler, Jupiter, aligns with Mars on Saturday, and you may have extra energy, drive, and motivation to take action and do what you want. It can be a good time for a new beginning or new project. You may start the week getting to the heart of a matter, and lighten your mood midweek, giving yourself some space to roam free. Later in the week, you can set new goals and work on your long-term plans, wanting to make sure you're going in the right direction. You may end the week expanding your social circle, taking a bigger role in a group, pursuing a cause you're passionate about, or stepping outside of your comfort zone.

Best days of the week for Sagittarius: Wednesday, Thursday, Saturday

January 8th - 14th 2018

Change can be something you can be more open to as the week starts, Sagittarius, and you can work on the changes you want to make in your life for the better. You can focus on your dreams for your future, and work on changes that get you closer to where you hope to be someday. Your ruler, Jupiter, positively hits the Sun and Venus on Monday, so you can kick off the week enjoying company and being charming, getting attention or benefitting from others, feeling more at ease with yourself, or feeling more creative. Later in the week, you can use your imagination to come up with new ways of doing things, and you can let your intuition guide you to the right solution to problems. You can be in tune with the subtle vibrations of the Universe, and can strengthen your spirituality. On Thursday, Mercury enters Capricorn and your money sector, and over the coming weeks, you can focus on your financial plans and work on your budget, make plans for a financial transaction, and you can come up with ideas to improve the stability and security in your life. You can take your time with decisions and plans, and can be confident in them once you do make them. Over the weekend, the Moon is in your sign, and you can be more energized and excited, ready to hit the ground running with new projects and ventures that you're passionate about. Work on a new beginning that you can focus on for the next month.

Best days of the week for Sagittarius: Monday, Friday, Saturday, Sunday

January 15th - 21st 2018

Money matters can be a focus as the week begins with a new moon in your money sector on Tuesday, and you can have great energy for focusing on your finances and pursuing financial opportunities and ventures. You can work on improving your financial situation, increasing the stability and security in your life, and bringing calm to chaotic areas. You can ground yourself, and feel more centered. Later in the week, your mind can be quite active, and with Venus entering Aquarius on Wednesday and the Sun entering Aquarius on Friday, you can come up with new ideas and work on new plans, and work on connecting with others mentally over the coming weeks. You can identify with your ideas, opinions, and plans strongly, and you can gather information, get advice, and talk things over. Over the weekend, comfort can be what you crave most, and you can spend time in the places most familiar to you or with the people who give you support and encouragement so you can feel emotionally comforted and calm.

Best days of the week for Sagittarius: Wednesday

January 22nd - 28th 2018

You may not be in the mood to deal with tasks and chores to start the week, and instead want to goof off, enjoy yourself, and extend the weekend. If you can take a little time away, that may be good for you, but if you can't, try to bring some joyfulness into everything you do. Later in the week, you can get to business, and get the little things out of the way. You can be focused and have better discipline, and feel good when you're productive. Your ruler, Jupiter, positively hits Mercury on Thursday, and you can be more mentally active and engaging, and focused on new ideas. On Friday, Mars enters your sign, Sagittarius, and over the coming weeks, you can have more energy and drive, feel more enthusiastic and positive, and want to pursue new beginnings. Your energy may have been low lately, and you may have had a hard time getting moving, but now you can push for what you want in healthy, positive ways. Over the weekend, you can give attention to others, and can benefit from a partnership.

Best days of the week for Sagittarius: Monday, Tuesday, Thursday

January 29th - February 4th 2018

On Wednesday, Mercury enters Aquarius and a lunar eclipse occurs in Leo, so it's the big day for the week. With Mercury, you can experience a surge in mental energy over the coming weeks. You can come up with new ideas, work on new short-term plans, gather new information, be more engaging, and fill up your schedule so you have plenty to do. With the lunar eclipse, you can make progress with big ideas, expansion, exploration, or new experiences that you're passionate about, or finalize plans for adventures and to open up your life in new ways. You can focus on the bright side of life, and want to enjoy yourself more. You may also focus on your beliefs, and become more invested in the ones you feel connected to and walk away from the ones you don't. You may start the week focused on serious matters and getting to the core of something, and work on big ideas midweek. Later in the week, you can work on a goal and try to hit your stride, and you may end the week spending time on a cause, pursuing an opportunity for one of your dreams, or going outside of your comfort zone.

Best days of the week for Sagittarius: Wednesday, Thursday

February 5th - 11th 2018

If you feel like trying something new and different, you may get the opportunity to do so to start the week, and can find it easier to step outside of your comfort zone and push your own boundaries. You can be open to unconventional methods and ideas, and willing to try whatever it takes to find solutions. Midweek, your imagination can be active, and you may get lost in daydreams and fantasies. This might make it difficult to focus on anything, so try to give your mind time to wander. Later in the week, the Moon is in your sign, and you can be more excited, driven, and energized for new beginnings, new projects, and new ventures. You can start something that is a focus for the next month, and feel good about it. Your ruler, Jupiter, harshly hits the Sun on Saturday, and you may lack attention you want or get attention you don't want, feel uncomfortable with something, or lack focus. Also on Saturday, Venus enters Pisces and your home and family sector, and you may enjoy spending more time at home or in the places most familiar to you, or with family or the people who support you over the coming weeks. In love, an emotional connection can be most important to you, and if single, you may want someone who you feel understands you emotionally. If in a relationship, you may want to work on having a better emotional connection. You may end the week enjoying the moment and lazing the day away.

Best days of the week for Sagittarius: Thursday, Friday

February 12th - 18th 2018

This is a busy week, and it comes with a solar eclipse in Aquarius on Thursday. This can bring good energy for focusing on your new ideas and plans, and you can keep yourself busy and be more engaging. Your outlook can be positive, and you can share what's on your mind. You can gather information, get or give news, and be more open. On Saturday, Mercury enters Pisces and your home and family sector, and the Sun enters Pisces on Sunday. Over the coming weeks, you can do your best thinking and feel most like yourself when you are spending time at home, being with your family or the people who support you, tending to your emotional needs, strengthening the foundation of something in your life, or working on something from the ground up. Your ruler, Jupiter, harshly hits Mercury on Tuesday, and you may have a hard time with focus or experience miscommunication. You may take your time to start the week, pick up your pace midweek, and focus on emotional matters later in the week. You may end the week feeling more creative, making time for your hobbies, or spending time with the people who remind you to have fun.

Best days of the week for Sagittarius: Sunday

February 19th - 25th 2018

Creative projects and ventures can be your focus as the week begins, and you may lack focus for anything that you feel is boring. If you're being creative, you can enjoy what you're doing, and the more you enjoy what you're doing, the better your focus can be, so infuse creative energy into everything you do. You can have better focus for the boring stuff midweek, and you can be more productive and efficient with your time and energy. You can take a practical approach to whatever you're working on, and can be more detailed and pay closer attention to the little things. Later in the week, you can turn your attention toward the people in your life and the relationships that require it. You may give more to others, and meet people in the middle and make compromises. You can have more tact and diplomacy. You can also be more comfortable with commitment and want to show how committed you are to the people you care about. You may end of the week trying to find out as much as possible about something, not stopping until you get to the heart of the matter.

Best days of the week for Sagittarius: Monday, Tuesday

February 26th - March 4th 2018

A full moon occurs in Virgo and your career and life path sector on Thursday, and this can bring energy to focus on your goals, your direction, your ambitions, and your path. If you've gone about things the right way and really care about what you're doing, you can make progress and open up new opportunities for yourself, but if you haven't been or don't really care, you may experience setbacks, delays, blocks, or make bad impressions. Your ruler, Jupiter, positively hits Venus on Thursday, and you may benefit from the people in your life or a partner, and can make compromises and keep the peace. You may start the week trying to get to the heart of a matter and doing lots of research into it. Midweek, you can take a step back and have a better view of the big picture, which can help you to be more optimistic. You can take a realistic approach later in the week, and understand what you need to do and where you need to be more responsible. Over the weekend, you can focus on being more true to yourself, embracing what's different and original, and not being afraid of going against the grain.

Best days of the week for Sagittarius: Tuesday, Wednesday, Thursday

March 5th - 11th 2018

Mercury enters Aries and your love sector on Tuesday, and Venus joins Mercury on Wednesday, and you can enjoy focusing on who and what you love over the coming weeks. You can spend more time with the people you love, doing the things you love in positive ways, being creative and positive, and may want more attention. You can be more affectionate, and in love, you can be more playful. On Thursday, your ruler, Jupiter, turns retrograde (appears to move backward), and you may feel off in a subtle way over the coming months. It can be very, very subtle, and you may not always be aware of it, but it can be a hint of something during this time. You may start the week wanting to spend some time on your own, out of the spotlight and away from others, and may need time to rest. The Moon is in your sign later in the week, Sagittarius, and you can focus on yourself, your own wants and needs, and feel energy return. You can start a new project that you focus on for the next few weeks. Over the weekend, you can press pause, wanting more time to enjoy the moment, live in the now, and not feel pressured into taking action or making decisions.

Best days of the week for Sagittarius: Friday

March 12th - 17th 2018

Your ideas and plans can be your focus for the first half of the week, and you can work on picking up your speed and gathering information you need, getting advice, going over your plans, and sorting through the various ideas you have. You may be excited by all of them, so keep track of the ones you feel strongly about. On Tuesday, your ruler, Jupiter, positively hits the Sun, and you can work on new opportunities and feel more comfortable with your wants and needs. Later in the week, you can feel more comforted and supported emotionally, and can stick to what you know best so you stay even emotionally. You can tackle the foundation of something that seems shaky and work on strengthening it. A new moon occurs on Saturday in Pisces and your home and family sector, and you can start new home improvement projects, plan a move, work on a real estate transaction, plan for time with family, make more time for the supportive people in your life, expand your support system, strengthen the foundation of something, or pursue opportunities to start something from the ground up that culminates in about six months. Also on Saturday, Mars enters Capricorn and your money sector, and over the coming months, you can pursue financial opportunities, arrangements, and transactions, and work to improve your financial situation. You can bring more stability and security to your life, and take your time with taking action. You can focus on this for a good portion of the year. You may end the week putting aside the serious so you can focus on the playful and fun.

Best days of the week for Sagittarius: Tuesday, Sunday

March 19th - 25th 2018

This is one of the more challenging weeks for the year, and you can feel it right as the week starts with the people you love, experiencing issues in your love relationships, or having a hard time getting attention. The Sun enters Aries and your love sector on Tuesday, and over the coming weeks, this can bring attention to issues of love and the heart, of creativity and expression, and you may get attention you don't want or lack attention you do want. On Thursday, Mercury turns retrograde (appears to move backward) in Aries, and this can be the culprit for issues over the next few weeks. You may struggle to communicate with loved ones, feel you're not getting what you deserve, lack inspiration or focus, and you may act a bit immaturely or dramatic and need to stay calm. It can be a good time to reconnect with old hobbies or redo old creative projects or ventures. Midweek, you can be more practical, the people in your life may be more demanding later in the week, and over the weekend, you can submerge yourself in a transformation that you hope improves your life in positive ways.

Best days of the week for Sagittarius: Monday

March 26th - April 1st 2018

You may try to use your optimistic outlook on life to help you deal with the difficult energy as the week begins, and this can serve to make you a little more positive. You can focus on big ideas and big plans, even if they may not be realistic. Later in the week, you can work on your goals, and try to keep yourself on the right path in life in spite of everything that is going on. You can have better focus, and try to be better disciplined. The big energy for this week comes on Saturday with Venus entering Taurus and your work sector, and a full moon in Libra. With Venus entering Taurus, you may enjoy being more productive and efficient, trying to get things done, tackling smaller projects, and may pay closer attention in love over the coming weeks. With the full moon in Libra, you may settle issues with friends or groups, grow closer with a friend or walk away from one, become more invested in a group or leave one, or become more invested in a cause or give one up. You can make progress with a dream you've worked hard and smart at, or question your dream. You can especially focus on your dreams over the weekend, and be open to changes.

Best days of the week for Sagittarius: Monday, Tuesday

April 2nd - 8th 2018

It can be a slow start to the week as you may find that you need extra time to rest, to recharge, or that your energy levels are simply better without anyone around to harass you. You may want to be out of the spotlight and avoid any attention, and can focus on staying in the background and behind the scenes. You can let your imagination take over too, and get lost in moments of daydreams and fantasies. Later in the week, the Moon is in your sign, Sagittarius, and you can feel more energized and driven, but you may not have anything to actually pursue at the moment. If you don't, you don't have to force yourself to find something, but you do need to try to keep yourself busy so you can use up the extra energy and not become easily irritated, frustrated, or annoyed with heightened emotions that you express more openly. Over the weekend, you can kick back for a little while, wanting to enjoy the moment while you have the opportunity to do so, and feeling that everything will start moving again soon, so now is the time to relax.

Best days of the week for Sagittarius: Wednesday, Thursday

April 9th - 15th 2018

The week can start with you focused on your ideas and plans, and you may not have much of a chance to do anything with them right now, but you can enjoy gathering information and getting advice. Later in the week, you can focus more on matters at home or with family, and strengthen yourself internally. The weekend can kick up a lot of energy, starting with your ruler, Jupiter, positively hitting Pluto on Saturday, and you may feel more powerful, in control, and strengthen yourself. Then on Sunday, a new moon occurs in Aries and your love sector, and Mercury ends his retrograde (appearing to move backward) in Aries as well. Over the last few weeks, you may have struggled with your love relationships, making time for who and what you love, or getting attention that you want. With the retrograde ending and a new moon in your love sector to come out of it, you can focus on connecting to your heart again, being affectionate and romantic, considerate and generous, and have a more positive outlook on life and enjoy yourself more.

Best days of the week for Sagittarius: Saturday, Sunday

April 16th - 22nd 2018

The little tasks and chores that have piled up lately may be your main focus as the week begins, and you can focus on trying to get them out of the way and get things done so you don't have to worry about them later. Midweek, you can focus on the people in your life who matter most to you, and work to strengthen your relationships and be more committed to others. You can help others out and enjoy company. Later in the week, you can get wrapped up in something that you're intensely focused on and passionate about, and not stop until you get to the heart of it. On Thursday, the Sun enters Taurus and your work sector, and over the coming weeks, you can feel most like yourself when you're being productive and efficient with your time and energy, getting organized or bringing structure and order to your life, clearing out clutter, improving your routine or regimen, or altering your lifestyle to be healthier. You may end the week wanting to detach emotionally or unwind your mind and focus on the bigger picture, the positives, and open up to expansion.

Best days of the week for Sagittarius: Sunday

April 23rd - 29th 2018

You can work on plans for expansion and big ideas as the week starts, and can be excited and optimistic about your abilities to make things happen. On Tuesday, Venus enters Gemini and your relationship sector, and over the coming weeks, you can enjoy spending more time with others, being committed and compromising, fair-minded and mediating, negotiating, and can meet new people, enter into new partnerships, and want more respect from others. Midweek, you can focus on your goals, and may work hard to achieve one of the goals you have right now. Later in the week, you can make adjustments as needed, and focus more on the future and what it may hold for you. The week comes to an end with a full moon on Sunday in Scorpio, and this full moon might bring some focus on the past, subconscious issues that need to be addressed, baggage that needs to be let go of, and you may want more time alone to reflect, turn inward, or get some extra rest.

Best days of the week for Sagittarius: Monday, Tuesday

April 30th - May 6th 2018

You may want some time to yourself as the week begins, and can feel more comfortable on your own. Other people may be draining on you emotionally, and if you find that to be the case, you may prefer to go it alone. You can work on your plans and projects and ideas out of the spotlight, and feel you can do more that way. You can open up with the Moon in your sign midweek, Sagittarius, and your energy and drive can increase as you feel more comfortable showing what you're working on. You can focus on new beginnings, and find it easier to take the initiative and be more assertive about what you want from life. You can be more take-charge, and want to embark on a new journey. Later in the week, you can get in touch with your senses, feel more indulgent, and strive to be more grounded. You can improve stability and security in your life, and work to remove blocks that have made you feel less confident lately. This can continue through the weekend, and you can end the week with new ideas.

Best days of the week for Sagittarius: Wednesday, Thursday

May 7th - 13th 2018

You can focus on your ideas as the week begins, and sort through all of the ideas you have. You can be excited by all of them, but can work on short-term plans for the ones you feel strongest about and get moving quickly. On Tuesday, your ruler, Jupiter, opposes the Sun, and you may get attention you don't want lack attention you do want, or feel uncomfortable with something. Midweek, you can spend more time at home or with family, tending to home or family matters, or working to strengthen the foundation of something in your life. You can understand yourself better emotionally, and strengthen your own core. Later in the week, you can make more time for your hobbies, the things you love to do in healthy and positive ways, and spend more time with the people you find fun. On Sunday, Mercury enters Taurus and your work sector, and over the coming weeks, you can focus on smaller tasks and chores, get work done, have a more focused mind, improve your routine or schedule, and can be more productive.

Best days of the week for Sagittarius: Friday, Saturday

May 14th - 20th 2018

This is a very busy week, and it starts with a new moon in Taurus and your work sector and Uranus enters Taurus that same day. With the new moon, you can pursue new work opportunities, start new work projects, get organized, improve your routine, or improve your lifestyle. With Uranus, this is the start of this transit, and you can work on new changes in your work life, daily life, or health over the coming months. On Wednesday, Mars enters Aquarius, and over the coming weeks, you can have more mental energy and lots of new ideas, take action with your ideas, or focus on the good. On Saturday, Venus enters Cancer, and you can enjoy transforming, sharing, and being passionate over the coming weeks. On Sunday, the Sun enters Gemini and your relationship sector, and over the coming weeks, you can feel most like yourself when you're spending time with the people you care about, making compromises, and playing fair. You may start the week being productive, meet people in the middle midweek, have more passion later in the week, and end the week coming up with big ideas.

Best days of the week for Sagittarius: Sunday

May 21st - 27th 2018

Your mind can fill up with big ideas rather easily as the week begins, and you can come up with ideas for expanding your life, exploring new places, and having new experiences. You can be open to learning and gaining new knowledge, and can share what you've already learned through life experience with others. Midweek, you can come back down to Earth a little, and focus on realistic plans of action for the goals you have and what you want to achieve in your life long-term. Later in the week, you can connect with your friends, groups you belong to, or try to do something good for the world that makes you feel good about the world. Your ruler, Jupiter, positively hits Neptune on Friday, and you can be whimsical, dreamy, compassionate, intuitive, and spiritual. Over the weekend, you can take time for yourself, maybe needing some time away from the craziness of life, and wanting to work on your plans without others sticking their nose in your business.

Best days of the week for Sagittarius: Monday, Friday

May 28th - June 3rd 2018

Mercury enters Gemini and your relationship sector on Tuesday, and on the same day, a full moon occurs in your sign, Sagittarius. With Mercury entering Gemini, you can do your best thinking when you have a partner, you can be more compromising and fair-minded, you can understand both sides of situations, and you can be more decisive when you feel balanced over the coming weeks. With the full moon in your sign, this can often be a time where you experience rewards, make progress with the things you've done properly, care about, and been responsible with. Otherwise, you may experience setbacks and delays, and need to make adjustments to your approach. Your ruler, Jupiter, positively hits Venus on Friday, and you can get along better with others and enjoy company. You may start the week with an active imagination and may want more time to get some rest. The Moon is in your sign midweek, and you can have more energy and drive. Later in the week, you can work to bring more stability and security into your life. You may end the week with new ideas and keep yourself busy.

Best days of the week for Sagittarius: Tuesday, Wednesday, Friday

June 4th - 10th 2018

The ideas you come up with to start the week can get your focus, and you can work on short-term plans to get started with some of them. You can be interested in a variety of things, so you may not spend a very long time on any one of them. If you feel a little scattered, try to keep track of the ideas you come up with so you can come back to them later with a clearer head. Midweek, you can focus on what you need emotionally to feel emotionally secure, and can give yourself some emotional comfort and support. You can tend to your emotional self, and work on strengthening yourself internally so you're more even and calm. Later in the week, you can be fun-loving and affectionate, generous and sweet, and this can help you feel better too. You can connect to the hearts of the people you care about most, and try to bring more joy into your life. You may end the week working on your routine and schedule so you can be more productive going into next week.

Best days of the week for Sagittarius: Friday, Saturday

June 11th - 17th 2018

There is a lot happening this week with the planets, and it starts with Mercury entering Cancer on Tuesday. Over the coming weeks, you can focus on serious matters, work to get to the heart of matters, do more research, have a serious outlook and approach, work on plans for a transformation, and can be more dominant in communications. On Wednesday, Venus enters Leo, and over the coming weeks, you can enjoy focusing on your big ideas, being expansive, exploring, having new experiences, and getting space. A new moon occurs in Gemini and your relationship sector on Wednesday as well, and you can meet new people, enter into a new relationship or partnership, make a new commitment or compromise, support someone in your life, pursue an opportunity with a partner, get balanced, and play fair. You may start the week being more productive and efficient with your time and energy, and getting things done. You can focus on others midweek, and be more passionate later in the week. Over the weekend, you can have some fun and open yourself to an adventure.

Best days of the week for Sagittarius: Saturday, Sunday

June 18th - 24th 2018

The goals and ambitions you've been working long and hard at can be your focus as the week begins, and you may want to feel like you're making some last-minute progress with them while you have the chance before energy starts to get wonky soon. You can hit a high point or hit your stride if you do things the right way, and stay on the path. Your ruler, Jupiter, positively hits Mercury on Tuesday, and you can have an active mind, come up with new ideas, and work on short-term plans. Later in the week, you can venture outside of your comfort zone, and come up with unconventional ways of doing things that can get you closer to success or to the dreams you have for your future. On Thursday, the Sun enters Cancer, and over the coming weeks, you may feel most like yourself when you are doing research, getting to the heart of matters, being intense and serious, passionate and mysterious, working on transformations for the better, or sharing with others. Over the weekend, you can do more for the people you care about, but may want some time alone to get lost in your daydreams.

Best days of the week for Sagittarius: Tuesday

June 25th - July 1st 2018

Mars turns retrograde (appears to move backward) on Tuesday in Aquarius, and Mars is retrograde in Aquarius until August. This may impact your communications and expression, and you can get into a lot of fights with people, have misunderstandings, identify too strongly with your ideas and opinions, and need to open up your mind, otherwise you can be frustrated constantly. A full moon occurs on Thursday in Capricorn and your money sector, increasing emotional energy around this retrograde, and making it more important for you to improve stability and security in your life and be careful of splurging too much. Mercury enters Leo on Friday, and you can work on being more optimistic and focused on the big picture over the coming weeks. Your ruler, Jupiter, harshly hits Venus on Monday, and you may struggle to get along with others. The Moon is in your sign, Sagittarius, as the week begins, so you may want to focus on your own wants and needs. Later in the week, you can slow things down, and over the weekend, you can work on finding a mental outlet.

Best days of the week for Sagittarius: Tuesday

July 2nd - 8th 2018

You may be focused on the ideas and plans you have to start the week, your communications and expression, but you can quickly focus on your emotions and try to get out of your head. This may be a welcome respite, and you can focus on getting more in tune with what you're feeling instead of trying to wrap logic around everything. You can gain better understanding of your emotions, of what you need emotionally right now, and how to strengthen yourself emotionally. Later in the week, you can still be focused on emotions, but can be more positive about it, and want to connect to the joy you have. You can be more generous and share good feelings with others. Your ruler, Jupiter, positively hits the Sun on Thursday, and you can get attention, feel creative, and be more fun-loving. Over the weekend, you can get to work on the things you didn't have time for during the week or lacked focus for, and can be better focused, more hard-working and practical, and more detailed.

Best days of the week for Sagittarius: Thursday, Friday

July 9th - 15th 2018

Venus enters Virgo and your career and life path sector on Monday, and over the coming weeks, you may enjoy pursuing your goals and ambitions, working on long-term plans, making connections with important people, making good impressions, getting praise or recognition, being in the public eye, or taking on responsibilities. On Friday, a solar eclipse occurs in Cancer, and you can pursue opportunities to transform yourself or your life in new ways for the better, and you can dig deeper to make the transformations last longer. You can do research, be more intensely focused, or pursue mutually beneficial projects and ventures. You may not have the chance to pursue opportunities right away, but can be ready once the opportunities present themselves. Your ruler, Jupiter, harshly hits Mercury on Monday, and you may lack focus or mental discipline. Jupiter ends his retrograde (appears to move backward) on Tuesday, and you can start to feel more like yourself as the weeks go on. You may start the week spending time with others, and work on intimacy midweek. Later in the week, you can expand and dream big, and you may end the week with practical plans.

Best days of the week for Sagittarius: Saturday

July 16th - 22nd 2018

You may start the week focused on one of your goals, and you can work on your long-term plans for that goal. You can be more disciplined, focused, and have a practical approach. You can take on new responsibilities to get closer to achieving your goal. Midweek, you may be open to the changes that get you closer to success. You may step outside of your comfort zone and do things in a different way than what you normally would think of. You may also get help from your social circle. Later in the week, you may want to spend more time on your own, and may feel you need time to yourself to work on your plans without interference. The Moon is in your sign, Sagittarius, as the week comes to an end, and you can be more energized, enthusiastic, and may want to go down a new path. Your ruler, Jupiter, positively hits Venus on Sunday, and you can be more charming and get along better with others. The Sun enters Leo on Sunday as well, and over the coming weeks, you may feel most like yourself when you are being expansive, bolder, adventurous, coming up with big ideas, and focused on the bright side.

Best days of the week for Sagittarius: Sunday

July 23rd - 29th 2018

There is strong energy this week with Mercury turning retrograde (appearing to move backward) in Leo on Thursday and a lunar eclipse on Friday in Aquarius, the sign opposite Leo. You may struggle with expanding your life, lacking opportunities to do so, or with feeling you have the freedom you need to do what you want over the coming weeks. You may push for more space, but it can backfire on you or push people away. You may be more defensive, or struggle with your beliefs. This can impact your daily life, the interactions you have with the people around you, and your ability to engage, and you may be more emotional in your communications. It may be good for you to vent and to get things off of your chest though, so don't hold it all in, but do find a healthy, positive way to vent rather than just unloading on someone. You can have strong mental energy this week too, so try to give your mind something to focus on. The week starts with the Moon in your sign, and you can have more energy overall. Later in the week, you can work on being better grounded, and over the weekend, you can focus on finding a mental outlet as the eclipse energy may be strong.

Best days of the week for Sagittarius: Monday, Tuesday

July 30th - August 5th 2018

Getting some comfort and familiarity as the week begins can be good for you emotionally. If you're feeling unsettled internally, turn inward and work to strengthen yourself at your core. You may benefit from spending time with people who support you and make you feel good about yourself. Later in the week, you can focus on creative projects and ventures, and this can help you get in tune with your heart and make you more positive. You may also make more time for the things you enjoy doing most in life, or to spend time with the people that you love. You may not want to focus on the things that you think are boring or mundane until the weekend. Your focus can be much better over the weekend, and you can tackle the smaller tasks and chores that you didn't get to during the week. You can make the most of your time and energy, and be more productive and efficient. Use the time to get organized, streamline, work on your routine and regimen, or set your schedule for the next week. The more you do, the more you want to do.

Best days of the week for Sagittarius: Wednesday, Thursday, Friday

August 6th - 12th 2018

This very busy week starts with Venus entering Libra on Monday, and over the coming weeks, you can enjoy spending more time with your friends, in groups, venturing outside of your comfort zone, making changes, and being more charitable. Your ruler, Jupiter, harshly hits the Sun on Monday as well, and you may avoid attention or feel uncomfortable with something. On Saturday, a solar eclipse occurs in Leo, and this can help you focus on your big ideas for expansion, exploration, and new experiences. The energy isn't great for this now, but you can start to prepare. On Sunday, Mars retrogrades (appears to move backwards) into Capricorn and your money sector. You may experience struggles financially, with stability and security, and feel more stuck. Try not to become too lazy and indulgent. You may start the week spending time with loved ones, and focus more on research and investigation midweek. Later in the week, you can be more optimistic, and you may end the week working on your goals, feeling more ambitious, and wanting to make sure you're still on the right path.

Best days of the week for Sagittarius: Friday, Saturday

August 13th - 19th 2018

You can work on a goal that you want to make progress with quickly as the week begins, and you may feel like you hit your stride or hit high point. Midweek, you can think more about your future, and what you need to do to make your dreams happen. You can be open to change, and be more independent. Later in the week, you can clear out your life of anything that is holding you back and preventing you from making what you want happen. The week comes to an end with the Moon in your sign, Sagittarius, and you can be more excited and energized. On Sunday, your ruler, Jupiter, positively hits Neptune, and you can be more whimsical, dreamy, compassionate, understanding, intuitive, and sensitive. Also on Sunday, Mercury ends his retrograde (appearing to move backwards) in Leo. We've been dealing with this retrograde for the last few weeks, and you have likely been struggling with having enough space to do what you want, freedom of movement, your beliefs, expansion, exploration, or having the opportunity to have new experiences. Now that the retrograde is ending, you can focus on big ideas, optimistic about your opportunities, and work to expand, explore, and feel free.

The best days of the week for Sagittarius: Sunday

August 20th - 26th 2018

On Thursday, the Sun enters Virgo and your career and life path sector, and over the coming weeks, you can feel most like yourself when you're focused on your goals and ambitions, making progress and achieving success, and working on your long-term plans. You can focus on your direction, and want to feel you're on the right path, even if you don't make progress now. A full moon occurs on Sunday in Pisces and your home and family sector, and you can settle issues at home, finish home projects or family ventures, settle disputes with family, tend to emotional needs, and strengthen the foundation of something in your life. The week starts with the Moon in your sign, and you can focus on yourself, your own wants and needs, and give yourself more attention. You can get grounded and feel calmer midweek, and keep busy and be more engaging later in the week. You may end the week spending time with the people you know best or in the places most family to you, seeking comfort and familiarity to help you feel better emotionally.

Best days of the week for Sagittarius: Monday

August 27th - September 2nd 2018

On Monday, Mars ends his retrograde (appearing to move backward), which is something we've all been dealing with for the last couple of months. The retrograde began in Aquarius and now comes to an end in Capricorn, and has likely impacted your ability to communicate properly, as well as to be grounded, secure, or made you feel stuck in some way. With the retrograde ending, you can get moving again and feel freer, but it may take some time to get back on track and feel like you're actually moving again, so try to be patient. You may start the week wanting more time in the places you know best or with the people you know best, seeking comfort and familiarity to make yourself feel better emotionally. Midweek, you can connect to your heart and try to focus on the positives in life, and later in the week, you can work to manage your stress levels better and to improve your lifestyle to give your well-being a boost. You may end the week seeking better balance to help yourself feel emotionally secure, and spending time with people you care about.

Best days of the week for Sagittarius: Wednesday, Thursday

September 3rd - 9th 2018

On Wednesday, Mercury enters Virgo and your goals and life path sector, and over the coming weeks, you can work on your long-term plans and strategies for your goals and ambitions. You can be practical about what you can achieve, and have greater mental discipline and focus. A new moon occurs on Sunday in Virgo, and you can pursue opportunities to achieve a goal, set a new goal, take on a responsibility, hit your stride, hit a high point, take the lead, or get praise or recognition. Venus enters Scorpio on Sunday as well, and you can enjoy getting some time to yourself, using your imagination, strengthening your intuition or spirituality, and being affectionate behind closed doors over the coming weeks. You may start the week spending time with loved ones and making compromises, and work on your emotional bonds midweek. Later in the week, you can work on your big ideas and big plans, and focus on the opportunities you have. Over the weekend, you can get serious about a goal, and work to make a good impression on the right person or get yourself on the right path toward success.

Best days of the week for Sagittarius: Thursday, Friday

September 10th - 16th 2018

On Monday, Mars enters Aquarius to kick the week off, and your mental energy can surge over the coming weeks. You can come up with new ideas and new plans, gather information, get advice, and share what you're working on, and you can be driven to pursue your ideas and take action with them now. This may have been put on hold before, so you can focus on picking back up the ideas that you really feel strongly about and doing something with them. Your ruler, Jupiter, positively hits the Sun on Tuesday, and you can feel comfortable with attention and focus on your opportunities. Jupiter positively hits Pluto on Wednesday, and you can feel more powerful and take control. Jupiter positively hits Mercury on Sunday, and you can be more engaging and open. You may think outside of the box earlier in the week, and have an active imagination later in the week. Over the weekend, the Moon is in your sign, traditionally a good time to start something new to focus on for at least the next month to make good use of extra energy and drive.

Best days of the week for Sagittarius: Tuesday, Wednesday, Saturday, Sunday

September 17th - 23rd 2018

Confidence can be high as the week begins, and you can feel good about yourself, your life, or what you're doing. If you don't, you may need to work on getting better grounded overall, and bring some more stability and security to your life. The more stable and secure and grounded you feel, the more confident you can be. Later in the week, you can be more active and engaged with lots of new ideas and new short-term plans for what you want to do. You can be excited by the ideas you come up with, and you can have lots of varied interests, but may not stick on any one thing for very long, your attention being quickly diverted to something else. On Friday, Mercury enters Libra, and the Sun joins Mercury on Saturday, so over the coming weeks, you can focus on your dreams for the future, your friends, and your causes. You may feel most like yourself and do your best thinking with friends or in a group, and you can enjoy pursuing causes you're passionate about. You can be more independent, open to change, and push outside of your comfort zone. You can think more about the future, and work on plans to pursue opportunities to get closer to achieving your dreams. Over the weekend, you can spend time with the people who support you emotionally and make you feel loved, or be in the places you know best to help you feel emotionally at ease.

Best days of the week for Sagittarius: Monday

September 24th - 30th 2018

You can focus on what you're feeling as the week begins, and the more you tend to your emotional self, the better you can feel. When you feel emotionally supported, you can feel at ease, and not get pushed around by what you're feeling. You can strengthen yourself internally, and you can strengthen the foundation of something in your life. Midweek, you can work on your connection to your heart, and try to remind yourself how to have fun, how to enjoy yourself, and to be joyful in life. You can feel more playful and affectionate, and be sweet and generous with the people you care about. Later in the week, you can focus on work that needs to be done now while you have the chance, and you can get organized, make lists, and try to be more focused on the smaller tasks and chores that need to be addressed. You can feel better when you're getting things done and not worrying about the little things. Over the weekend, you can spend time with your loved ones and enjoy having company, and prefer being with loved ones to being alone, or spend time with someone one-on-one.

Best days of the week for Sagittarius: Tuesday, Wednesday

October 1st - 7th 2018

Venus turns retrograde (appears to move backward) on Friday of this week in Scorpio, and this will remain for the rest of the month of October. This may bring out some subconscious issues in your relationships and dealings with others, and with love and relationships in general. Issues from the past may come back, as well as people from the past, and you may need to address issues that you thought you were done with but need to work on letting go of now. You may want more time alone and find other people to be more draining on you, or you may feel you have too much time alone and aren't as comfortable with it. Your imagination may be strong, and you can get lost in daydreams and fantasies, so focus may be lacking. It can be a good time for rest and retreats. You may start the week spending time with loved ones, and focus on research midweek. Later in the week, you can work to have a lighter mood, and over the weekend, you can focus on your direction and work to make sure you stay on the right path during this time.

Best days of the week for Sagittarius: Thursday

October 8th - 14th 2018

Changes may be on your mind to start the week, and you can be more open to trying things outside of your comfort zone and that push you toward the unconventional and innovative. A new moon occurs on Monday in Libra, and you can benefit from doing so, and pursue opportunities for change, to advance your dreams, and expand your social circle. You can be more independent and think more about the future. Mercury enters Scorpio on Tuesday, and you can do more thinking on your own and have an active imagination, and focus more on the issues brought up by Venus retrograde in this sign over the coming weeks. You may feel you need more time alone and your focus may be lacking for now, but you can feel better when you get time to let your mind soar and wander, especially later in the week. Over the weekend, the Moon is in your sign, and you can have more energy then and feel more comfortable with attention or being in the spotlight. You may focus on something new you can work on quickly and have a burst of enthusiasm for.

Best days of the week for Sagittarius: Friday, Saturday, Sunday

October 15th - 21st 2018

Your confidence can be high to start the week, and this can help you ground yourself and bring some stability and security to your life. You can focus on the areas of life that are most chaotic and need attention, and work on trying to infuse them with grounded energy and sort through the mess. You can be confident in your abilities to do so, and can work to improve your life for the better. Later in the week, you can keep yourself busy with lots to do, plenty of ideas to work on and plans to finalize, and you can be more engaging with others. You can fill up your schedule, and want to use up the mental energy you have so you don't feel restless. It can be a good time for some learning, teaching, or writing, or to do some work in your community. Over the weekend, you can spend time at home, in the places you know best, or with the people you view as family and who support you. You can stick to what you know, wanting to stay within your comfort zone, and this can help you feel more centered emotionally so you can strengthen yourself internally.

Best days of the week for Sagittarius: Monday, Tuesday

October 22nd - 28th 2018

If you don't enjoy whatever you're doing to start the week, it can be difficult for you to get anything done, and your attention can constantly stray. Try to make whatever you're doing, no matter how small and mundane, something you can enjoy so you can stay focused and get it done. On Tuesday, the Sun enters Scorpio, and you may feel most like yourself when you're on your own, using your imagination, or tending to spiritual needs over the coming weeks. You may find other people are more draining, and may need to take more time to yourself to replenish your energy, especially after spending a lot of time with others. You may come across as more intuitive, compassionate, or sweet. On Wednesday, a full moon occurs in Taurus and your work sector, and you can finish up work projects, settle issues at work, or give up a bad habit. If you're not passionate about what you do on a daily basis, dissatisfaction can grow worse. Try to have an outlet for stress, otherwise you might make yourself sick, especially later in the week. Over the weekend, you can spend time with loved ones, feel more charming, enjoy company, and want to bring some balance into your life.

Best days of the week for Sagittarius: Monday, Tuesday

October 29th - November 4th 2018

If there's something you need to know more about, you can focus on it intensely to start the week, and you can stick with it until you find all there is for you to find. You can get to the heart of matters, and you can gain better understanding. Your ruler, Jupiter, aligns with Mercury on Monday, and you can have more ideas and be more engaging. Midweek, you can take some space and be open to expansion, exploration, and new experiences, and feel more positive and optimistic. On Wednesday, Venus retrogrades (appears to move backward) into Libra, and you may struggle with your dreams for your future, your friendships or groups you belong or, or changes over the coming weeks. You may push for more independence from others, but it may just push them away, so try to find middle ground. If you question your dreams, try not to make rash decisions now that you regret later. Mercury also enters your sign, Sagittarius, on Wednesday, and you can have more mental energy, new ideas and plans, and be more open with what's on your mind over the coming weeks, and pursue new ideas and plans. You may work on your goals later in the week, trying to make some progress as best as you can. You may end the week working on positive changes and trying to manager the Venus retrograde energy.

Best days of the week for Sagittarius: Monday, Wednesday

November 5th - 11th 2018

There is major movement happening this week, and it starts with Uranus retrograde (appearing to move backward), going from Taurus back into Aries for the next few months. Uranus started a new tour in a new sign this year with Taurus, so the next few months are about tying up loose ends and finishing what you've started, and taking chances to do things while you can. For you, this may deal with your love relationships, creativity, hobbies, or the ways you feel joy. On Wednesday, a new moon occurs in Scorpio, and you can get good energy for pursuing opportunities to do things in the background or out of the spotlight, to strengthen your spirituality or intuition, to use your imagination, or to let go of something. On Thursday, your ruler, Jupiter, returns home to your sign, Sagittarius, where he'll be for the next year. This means you are now the beneficiary of Jupiter's expansive energy, and you can focus on expanding your life in new ways, having new experiences, exploring the world, opening yourself up to the possibilities, and being your optimistic self. This may not be apparent right away though, as Mercury retrograde starts next week in Sagittarius, and you can feel super off with that, so it may not kick in with the good energy until after that is over. You may start the week venturing outside of your comfort zone, and get some rest midweek. The Moon is in your sign later in the week, so you can focus on your own wants and needs and feel more comfortable with attention. You may end the week slowing down and enjoying the moment.

Best days of the week for Sagittarius: Friday, Saturday

November 12th - 18th 2018

There is a lot of activity astrologically this week, starting with Mars entering Pisces and your home and family sector on Thursday. You can spend more time at home or improve your living space, more time with family or expand your support system, and you can stick to what you know best. You may strengthen the foundation of something, or start something new from the ground up over the coming weeks. On Friday, Venus ends her retrograde (appearing to move backward), moving forward again in Libra, and you can start to find your passion for your dreams again, and work to connect better with friends or groups. Mercury starts his own retrograde on Friday though, and in your sign, Sagittarius, so you can feel completely off over the coming weeks, and it may seem like if it can go wrong, it does. Give yourself lots of time to get things done, practice patience, and manage stress. You may start the week enjoying the moment, get busy later in the week, and seek comfort and familiarity over the weekend.

Best days of the week for Sagittarius: Monday

November 19th - 25th 2018

You can be in a loving mood as the week starts, and you can be more romantic and affectionate if in a relationship. If single, you may want to keep things casual and not attach yourself to anyone for the moment. Your ruler, Jupiter, harshly hits Mars on Monday, so watch for irritability and frustration, and keep yourself busy. Midweek, any work that needs to be done can demand your attention, and you can tackle the little things with energy and zeal. The more you do, the more energy you may feel that you have to do more. The Sun enters your sign, Sagittarius, on Thursday, and over the coming weeks, you can be comfortable with attention, focus on what you want, and pursue opportunities. On Friday, a full moon occurs in opposing sign, Gemini, and you can settle issues in relationship, end a relationship or partnership, and be more expressive with your feelings one-on-one. You may give more attention to your relationship with others and with yourself, and work to balance the two. You may end the week trying to transform for the better, and making it stick around for the long haul.

Best days of the week for Sagittarius: Monday, Tuesday

November 26th - December 2nd 2018

Tackle a serious matter or subject to start the week since you'll likely be in a better mood to deal with it. If your focus is good and you're feeling intense, that might be good for handling the serious matter or situation that needs you to be intensely focused. Midweek, you can lighten up your mood quickly, and focus on the good in your life, trying to make yourself more optimistic. On Tuesday, your ruler, Jupiter, aligns with Mercury, and your mind can be more active, you can be more engaging, and you may focus on an old idea or plan again. Later in the week, you can focus on your direction, the path you're on, and assess if you need to make some changes or not to get to where you want to be. On Saturday, Mercury retrogrades (appears to move backward) into Scorpio, and over the next week, you may struggle with exhaustion, find other people drain you, or have stuff from the past coming back into your life. Take any time you need to rest, and if you're feeling weighed down by anything from the past, work on letting go of baggage. Over the weekend, you can think about the future and what you hope will change going forward.

Best days of the week for Sagittarius: Tuesday, Wednesday

December 3rd - 9th 2018

On Thursday of this week, Mercury ends his retrograde (appearing to move backward) in Scorpio. This retrograde began in your sign in November, and you've likely been feeling off ever since, slowed down or stalled, having to deal with all sorts of issues, and you may have felt more rundown and exhausted, drained and used since Mercury has been in Scorpio (December 1st). After about another week or two, you can start to feel more like yourself again, get back on the right track, and pick back up what got left behind last month. You're helped by a new moon on Friday in your sign, Sagittarius, and this can be an excellent time of the year for you. You can focus on new projects, ventures, and beginnings, and you can have more energy and excitement for what you're doing. You can use your energy well, and get yourself moving again. You may start the week spending time with friends or in groups, and midweek, you can spend more time alone, wanting to work on your plans without interference. Later in the week, the Moon is in your sign, and you can make yourself more of a priority, and focus on your own desires. Over the weekend, you can slow things down, enjoy the moment, and splurge on yourself.

Best days of the week for Sagittarius: Thursday, Friday

December 10th - 16th 2018

It can be a slow start to the week, and you may not want to budge unless you're confident in your decisions and actions. If you're not, you don't feel the need to do much until you do feel that way. You can be more movable midweek, and you can keep yourself busy and feel more sociable. On Wednesday, Mercury enters your sign, Sagittarius, and over the coming weeks, this can increase your mental energy in a big way. You can be more open with what's on your mind, your opinions and thoughts, your ideas and plans, and you can be excited by what you think up. You can take the first steps with a plan or idea to make it actually happen. Later in the week, you can spend time in the places you know best or with the people you know best, wanting some support and a little bit of comfort. You can stick to what you know and not spend much time pushing outside of your comfort zone at all. You may end the week tending to your heart and sharing your good feelings, wanting to help the people you care about feel as good as you do, or wanting to feel more connected to them.

Best days of the week for Sagittarius: Sunday

December 17th - 23rd 2018

Your creative self can be strong as the week begins, and you can use the energy to focus on creative projects and ventures. If you don't enjoy what you're doing, you may not be able to focus on it to start the week, and can instead find the focus for it midweek. Your focus can be better midweek, and you can work on what you need to and get done what you need to get done. The smaller tasks and projects that have piled up lately can come back into focus, and you can tackle them now. Later in the week, your attention can turn toward the people in your life, and you can work to be more committed, compromising, and fair. If they need you, you can work to be there for them. Your ruler, Jupiter, aligns with Mercury on Friday, and you can be more open with what's on your mind, come up with new ideas, and can be more engaging. The Sun enters Capricorn and your money sector on Friday as well, leaving your sign, and over the coming weeks, you can step out of the spotlight and slow things down, taking your time with decisions and actions, and working to bring more stability and security into your life. You can feel more grounded, centered, and focused. On Saturday, a full moon occurs in Cancer, and this full moon can be very serious energy for you. You may need to work on a deeply-held issue, bring something out that you're not comfortable with, deal with a serious issue, or focus on the dark side. Your emotions can sway around and you can volley between extremes, so work to have an outlet for your feelings so you don't get

stuck in foul moods. Work to transform and become better. You may end the week taking time for yourself to tend to serious matters.

Best days of the week for Sagittarius: Monday, Friday

December 24th - 30th 2018

To start to last full week of 2018, you may focus on something you need to know more about, something you did to dig deeper into and find all that you can to gain more understanding or find a solution to a problem. You can quickly give yourself some space and find some room to roam midweek, and prefer to focus on lighter subjects of interest. You can work on plans for expansion and take an optimistic view of life. Later in the week, you can work on your goals and ambitions, or set new goals for yourself. You may be thinking about the new things you want to achieve in 2019, the things you want to make progress with before 2018 ends, and what plans you need to work on, homework you need to do, and responsibilities you need to take on. Over the weekend, you can step outside of your comfort zone, willing to try the unconventional and open to new changes for the better. You can spend time with friends or in groups, and expand your social circle.

Best days of the week for Sagittarius: Tuesday, Wednesday

December 31st 2018 - January 6th 2019

On Monday, Mars enters Aries and your love sector to end 2018, and over the coming weeks, you may go into 2019 feeling more creative, inspired, and fun-loving. You can make more time to enjoy yourself, to have fun, to goof off, to connect to your heart, to be playful and joyful, and to remind yourself not to be too serious. You can pick up new hobbies, pursue creative ventures and projects, and make good use of creative energy. You can be more inspired by life, and focus on the positives. On Friday, Mercury enters Capricorn and your money sector, and you can focus on financial matters, and take your time with decisions over the coming weeks. You can be confident in the decisions you do make, and feel your mind is more grounded. You can work on plans for improving your finances, and work to be confident in your financial plans. With a solar eclipse in Capricorn on Saturday, you can pursue financial opportunities and work to put yourself in a better position financially. You may bring more stability and security to your life, and feel more confident in your abilities. You can get grounded, and move forward with solid roots. You may start the week with an active imagination, and the Moon is in your sign later in the week, so you can be more active and energized, and ready to get started with new beginnings and new opportunities. You can slow things down over the weekend to enjoy the moment.

Best days of the week for Sagittarius: Wednesday, Thursday, Friday

Sagittarius 2018 Yearly Horoscopes

Uranus is coming to the end of his time in your love sector, staying here until mid-May and coming back in early November. You've likely experienced many changes in your love relationships, and changed what you want from love and what love means to you, and this can start coming to a close. Mercury retrogrades (appears to move backward) in your love sector mid-March through mid-April, and you can focus on issues that need to be worked on then, and may feel the need for more change, but try not to rush into anything too fast.

The July 12th solar eclipse occurs on your intimacy sector, and you can focus on new ways to open up emotionally and strengthen the emotional bonds you have with others. You can be more willing to be open, and you can take your commitments seriously.

Career & Money:

Saturn and Pluto are in your money sector all year, helping you get serious about your finances and focus on issues you may need to address. You may feel more insecure financially, but you can stay on track if you're responsible with money. Mars is in your money sector mid-March through mid-May, and you can focus on new financial opportunities and work to improve your position financially. Mars retrogrades in this sector the second half of August though, and you

may need to address financial problems or situations that require more attention. Mars stays in this sector to mid-September, and you can be more confident and make better choices.

Uranus begins a tour in your work sector mid-May through early November, and you can start experiencing changes with your work life. What kind of work you want to be doing, the work opportunities you're presented with or pursue, and the kind of people you encounter through your work can start shifting, and you can focus on breaking out with your work if you're not in a job you're happy with over the next couple of years.

Home & Family:

Neptune is in your home and family sector all year, and you can be more compassionate and understanding with your family, and crave a place to escape from the crazy world at home. Mars is in your home and family sector mid-November through December, and you can end the year focused on spending more time at home or with family, feeling energized when you have a good support system and are being supportive, and can embrace sharing emotionally.

Uranus is ending his time in the sector ruling your children, staying here until mid-May and coming back in early November, and things with your children have likely been shifting over the years, with your relationship

evolving and with them evolving as people, if you have any kids. Mercury retrogrades in this sector mid-March to mid-April, and they can be more rebellious yet want more attention, so try to be supportive but firm, and spend more time listening.

Mental State:

The February 15th solar eclipse occurs in one of the sectors ruling your mind, and you can focus on new ideas, make new plans, and have a more active mind. The July 27th lunar eclipse occurs in the same sector, and you can sift through your ideas and plans and focus on what you're passionate about. Mars is in this sector starting mid-May, increasing your mental energy and drive, and retrogrades in this sector late June through mid-August, and you may lack focus, have a hard time sticking to your plans, and get into it with people. Mars returns to this sector mid-September to mid-November, and you can find new energy and drive for your plans and ideas, and be more open with them.

The January 31st lunar eclipse occurs in the other sector ruling your mind, and you can finalize plans for expansion and work to make progress with big ideas. The August 11th solar eclipse occurs in this sector as well, and you can work on expanding your life, opening your mind, learning new things, and gaining a new perspective.

Jupiter is in the sector ruling your subconscious mind to early November, and this can be an excellent time to dive into your subconscious mind and explore your subconscious issues, motivations, and desires. You can work on understanding your subconscious mind better and letting go of subconscious baggage and drama. This is especially the case to start the year with Mars in this sector in January, and you can be energized and enthusiastic about it. Venus retrogrades in this sector in October, and you may be lazy about dealing with these issues at that time, so give your subconscious mind a break and get lots of extra rest. Mercury retrogrades in this sector the first week of December, and you can see issues from the past come back and have to address subconscious issues.

General:

Mars is in your sign late January through mid-March, and your energy can surge, you can be more driven and enthusiastic, and you can make the most of opportunities. You can take the initiative and get started with something new. Jupiter, your ruler, enters your sign in early November, to stay for the next year, and you can feel great, optimistic, coming up with big ideas, wanting to expand and explore, and experiencing new parts of life. This may not be right away though with Mercury retrograde in your sign the second half of November, and you can feel completely and totally off and have all sorts of random things go wrong. You can be extra stressed and pushed and pulled, so give

yourself breaks and go easy on yourself. It is an amazing time for a second chance in your life though, so think about something you can try again with. The start of the retrograde can impact those of you born December 4th - 7th most.

Mini Month-by-Month Horoscopes:

January: You can do a lot more on your own without other people getting in the way this month, and you can thrive in the background and out of the spotlight. You can work on your plans without interference, and you can feel better emotionally if you let yourself focus on new ways to expand and explore.

February: Your energy can surge this month, and you can focus on starting new projects and pursuing new ventures. You can come up with plenty of ideas and work on plans for your ideas, and you can take action to make those plans come true. You can be excited about it and ready to go.

March: You can start the month with plenty of energy, but that slows down as the month goes on, and you may need to focus on a creative project that requires more help, or give more attention to someone you care about who needs help as well. You can take your time with anything new and leave it for later.

April: You may crave more attention than you can get this month, or get attention that you don't want, and you can feel uncomfortable and act a little dramatic as a result. You may need to take some time away to lazy the day away, relax, indulge, and not worry so much about every little thing.

May: Energy can increase as the month goes on, especially mentally, and instead of taking your time, you can jump to action with your ideas. You can work on your plans early in the month so you can get things moving quickly once you get started, and you can think quick on your feet with changes.

June: You may lack focus this month, and you can get into it with the people in your life, especially over your ideas or plans. They may not understand, or you just may be overly emotional and need to take a step back. Try to listen listen to the people you care about instead of exploding.

July: You may need to dig deeper into something this month, and focus on trying to understand as much about it as you can. You can work on researching and your focus can be intense and passionate for whatever you need to know more about. You can be more serious too, though maybe too serious.

August: Think about an old plan for expansion that you'd like another chance with, and consider trying that out now. The old plan you had might work now with some revisions, and you can find excitement for it again. You can crave more freedom in your life now, and want to work to expand and explore.

September: You can expand your social circle this month, open to meeting new people and joining new groups, and you can be friendlier and more gregarious with new people. You can focus on the positives and try to be more open with what's on your mind, and open to new ideas.

October: You can feel extra exhausted this month, and may need more time to rest and relax. If you're feeling drained, try not to push yourself too much. Your mind can be more active, and you can work on plans for your ideas, but taking action with them may not be possible for now, so wait.

November: You may feel like you have a million things to do and focus on this month, and you can feel pushed outside of your comfort zone a little bit, but you can work on starting something from the ground up or improving the foundation of yourself or life, and that helps you feel optimistic.

December: You may be feeling extra emotional to start the month but keep most of it to yourself, and you can work to strengthen yourself emotionally as the month goes on. You can start to feel calmer and more stable, and you can give yourself the comfort and support you need to stay that way.
